### Instructions

The piece must start by having 1+ musician(s) begin with the first line.

Musicians can repeat as many times as wanted.

**The piece starts and begins the same way, with the first line being played. The ensemble can build up to as many lines as wanted. The piece will come to an end by taking one line off at a time. This can all be determined by the ensemble/director.**

Octaves should be adjusted according to your instrument/voice.

Singers will add their own wordless vocables, like scat singing.
